CEO's Letter to the Shareholder

Dear Fellow Shareholder,

The year 2010-2011 has been quite challenging and when we look back at the Indian IT Industry's performance at the end of the fiscal, we will remember 2010-2011 as an eventful year of improved performance in which the industry demonstrated its maturity and the robustness of its business model. It has not only recovered smartly from the worst downturn we have seen in living memory but also re-engineered and reinvented itself and is now well poised for the future. The advent of 2010 also signaled the revival of outsourcing within core markets, along with the emerging markets increasingly adopting outsourcing for enhanced competitiveness. The Indian IT industry has grown phenomenally over the past decade from \$1 billion industry in 2001 to \$60 billion in 2010.

The global economic climate, post recession, posed several challenges but with clear focus on quality and productivity we have been fairly successful in achieving our objectives. The overall performance for the year spelled growth for ASM registering consolidated revenues of Rs. 11,164.65 lakhs for the year ended 31st March 2011, a growth of 61.96% over the same period the previous year. EBIDTA was at Rs. 1,099.19 lakhs while Net Profit increased by 95.06% to Rs. 627.87 lakhs.

On a standalone basis the company registered revenues of Rs. 6,232.75 lakhs for the year ended 31st March 2011, a growth of 45.65% over the same period the previous year. Domestic sales were Rs. 2,781.93 lakhs while Export sales were Rs. 3,450.81 lakhs. EBIDTA was at Rs. 1,016.30 lakhs while Net Profit increased by 90.16% to Rs. 651.94 lakhs.

The impressive performance has helped us reward our shareholders in a significant manner with a dividend of Rs. 2/- per share for the year 2010-11, subject to the shareholders' approval.

During the year the company signed a definitive agreement to acquire 100% of Abacus Business Solutions, Inc., US based firm in an all cash deal. The acquisition was through the company's wholly owned subsidiary, Advanced Synergic Pte Ltd, Singapore. Abacus has been in the business for more than a decade assisting large corporations and Fortune 500 Companies with Enterprise Applications, Oracle Applications, Oracle Tools and Technology, E-Commerce, Reporting and Data Warehousing. The acquisition has afforded ASM an opportunity to expand its offerings to a larger ERP & Oracle client base in the US and thus broaden its revenue margins.

Future Outlook

With the Global Economic trend looking positive and good, after two turbulent years, there is a greater learning and changes envisaged in the way the Business / Industries plan and execute their charter. This is good news for the IT Industry in particular lending itself to provide solutions for the Growth Phase.

ASM will leverage this phase in consolidating and growing the organization by offering more services to the existing clients across other geographies and new client acquisitions. This growth phase will also set a platform to have more long term strategic partnerships with the customers moving up the value chain from project mode and center of excellence.

The existing clients will be offered cross solutions across various technologies thus moving from a Technology Competency to Industry Vertical Specialization relationship thus aligning more deeply with the Client's business. This model will be extended to the New Clients as the relationship progresses.

New client acquisitions will be through addition of specialized sales and delivery professionals across geographies, through new company acquisitions and specializations in more Industry Verticals which offer high growth.

Geographical Areas of Operation

The company has increased its presence in US to 3 offices, apart from India, Singapore and UK. This year the company is exploring the possibility of setting up operations in LATAM (Latin America) Region.

Future Expansion Areas

More Industry Specific Applications

The need to quickly deploy the ERP Solutions specifically designed for the different industry sectors is gaining momentum. ASM is addressing the needs of the Agriculture Based Industry, Process Industry, Consumer Products, Hi-Tech Industry, Clean Power Industry and Services Industry. These Industry Specific solutions configured to the Global ERPs will ensure rapid implementation and the clients can reap the benefits of a integrated information system.

Paradigm Change in the way the Global Markets communicate

ASM is working in new areas, specifically in cloud computing, which will be an inclusive solution program and change the way the Industries / Business communicate with their internal and external stakeholders across multiple geographies. This solution will further be refined for Specialized Industry Verticals.

Additional offerings to Enterprise Applications

Development of Adaptors for Enterprise Solutions: With diverse applications used by various clients based on their business needs, ASM has embarked on Development of Adaptors in partnership with ERP ISVs (Independent Software Vendors) which will seamlessly integrate multiple Enterprise Applications.

Business Intelligence and Data Warehousing: With large amount of data getting generated across enterprises, the need for providing meaning to the data is imperative. Hence a separate practice is built around market leading tools on the Business Intelligence and Data Warehousing.

Product Lifecycle Management (PLM): With new product development activities / initiatives across the world gaining high momentum, there is a need to provide scientific ways of managing the Product Lifecycle and the Company is moving towards building expertise and practice in providing PLM solutions tightly integrated with the Enterprise Applications.

Social Media : With the growth of social media, ASM is working on initiatives of adapting social media with existing Enterprise Apps with the requisite security and controls.

Employees are our asset and we attribute our success to an experienced management team and to a customer- oriented organization that is dedicated to excellence. Vesting faith in the resilience of our business model and driven by the talent and commitment of our people we look forward to overcoming challenges that lie ahead of us. Our historical strengths, inovative business model and market integration position us well to capitalise on opportunities and deliver more value to our shareholders.

On behalf of the management of the company and on my behalf, I take this opportunity to thank

- * Our esteemed customers, shareholders, vendors, business partners, advisors and consultants for their support
- * Valuable employees of the company for their valuable contribution, efforts and spirit of dedication
- * State Bank of India - Overseas Branch, Indian Bank - Singapore, SBI Global Factors Ltd, SBI Chicago and Bank of Baroda for their support and guidance

7. Future Outlook

With the Global Economic trend looking positive and good, after two turbulent years, there is a greater learning and changes envisaged in the way the Business / Industries plan and execute their charter. This is good news for the IT Industry in particular lending itself to provide solutions for the Growth Phase.

ASM will leverage this phase in consolidating and growing the organization by offering more services to the existing clients across other geographies and new client acquisitions. This growth phase will also set a platform to have more long term strategic partnerships with the customers moving up the value chain from project mode and center of excellence.

The existing clients will be offered cross solutions across various technologies thus moving from a Technology Competency to Industry Vertical Specialization relationship thus aligning more deeply with the Client's business. This model will be extended to the New Clients as the relationship progresses.

New client acquisitions will be through addition of specialized sales and delivery professionals across geographies, through new company acquisitions and specializations in more Industry Verticals which offer high growth.

Geographical Areas of Operation

The company has increased its presence in US to 3 offices, apart from India, Singapore and UK. This year the company is exploring the possibility of setting up operations in LATAM (Latin America) Region.

REPORT ON CORPORATE GOVERNANCE

(Pursuant to Clause 49 of the Listing Agreement with Stock Exchanges)

I. COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE

Corporate Governance is about maximizing shareholder value legally, ethically and on a sustainable basis, while ensuring fairness to every shareholder- the Company's customer, employees, investors, vendor partners, the government of the land and the community. Hence it is a reflection of a company's culture, policies, its relationship with the stakeholders and its commitment to values. Thus timely flow of information regarding the financial status, performance, ownership and governance is an important aspect of corporate governance. We believe that sound Corporate Governance is vital to enhance and retain investor trust.

At the core of its corporate governance practice is the Board, which oversees management policies towards protection of long-term interests of all the stakeholders of the company. The company has adopted a Code of Ethics for its Senior Management and the Board of Directors. The Board of Directors fully support and endorse Corporate Governance practices and attempt to go beyond the statutory requirements.

IX. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Overview

The financial statements have been prepared in line with the requirements as specified under the Companies Act 1956, Securities Exchange Board of India (SEBI) and Generally Accepted Accounting Principles in India (GAPP). The estimates and judgments relating to the financial statements have been made on a reasonable basis so that the financial statements reveal a true and fair picture of the essence of the transactions and reasonably present the state of affairs, profits and cash flow of the company for the year. Our Management accepts responsibility for the objectivity of these financial statements as well as for the estimates and judgments used therein.

1. Industry Structure and Development

The world is emerging out of the worst financial crisis it has seen in decades. While the global situation is improving, the recovery is slow and hampered by a sluggish growth outlook in the key economies of the United States and Western Europe. Also there are growing concerns about the ability of key emerging economies to sustain relatively high growth rates. As for the Indian technology environment, the second decade of the second millennium ended on several positive notes. Global recession seems to be subsiding and while many of the critical technology trends that dominated the business world in 2010 will continue to accelerate in 2011 several new ones, namely the growth of cloud computing and continued consolidation will gain enough momentum to become significant.

As per Gartner global spending on technology is likely to rise by 5.1% in 2011, higher than its previous estimate, as the dollar's recent weakness helped spending in 2010 top its forecast. Total IT spending to touch USD 3.6 trillion this year, up from its earlier forecast of a 3.5% rise. For 2010, IT spending rose to 5.4% to USD 3.4 trillion, up from Gartner's estimate by 3.2%. According to NASSCOM outsourcing of Engineering services is expected to cross USD 60 billion by 2020. It further states that the local India services market is estimated at USD 50 billion while the off-shoring market is estimated at USD 175 billion by 2020.

2. Opportunities

After battling tough economic environment in the first half of the year when the enterprises globally slashed their IT budgets, the Indian IT sector is turning buoyant again. With a healthy surge in outsourcing demand and strong deal pipeline, IT revenues are expected to get the biggest boost in coming quarters. With enterprises globally thawing IT budgets to prepare for the future, indication is clear-strong volume momentum will be the flavor of the season and double digit volume growth won't be a surprise to the Indian IT companies, but maintaining the right pace will be a challenge. With IT sector back on track companies are aggressively hiring to ready its growth engine. Consumers of products and services are increasingly demanding accelerated delivery times and lower prices. Companies are focusing on their core competencies and using outsourced technology service providers to adequately address these needs. As per Gartner Worldwide enterprise IT spending will continue to grow albeit modestly from \$2.38 trillion in 2010 to \$2.46 trillion in 2011, 3.1% increase and reaching \$2.8 trillion in 2014.

Cloud computing is another area which may drive the IT need of the services industry during the year mainly due to its manageable IT infrastructure and cost effectiveness. The mid market segment remains a major growth avenue for enterprise applications. Globalisation continues to drive global servicing models which ensures India to remain competitive and leverage on its talent pool. Customers are opening up to offerings around cloud computing solutions, SaaS, on demand solutions, etc which enable service providers to address new customer segments.

We believe in our competitive strengths and with our Global Delivery Model and core competencies consider to address the changing economic scenarios as an opportunity to provide greater value to existing clients and add new clients.

3. Outlook

This has been provided elsewhere in the Annual Report.

4. Risks and Concerns

a. Employee Risk

In the current highly competitive environment Human Resource function has emerged as a critical function in every company. People are considered to be the vital resource for the growth of a company. Developing and retaining quality talent is another challenge faced by the Industry today. Rising attrition is a major risk in the industry in the background of increasing opportunities in the software outsourcing boom. Though the number of engineering colleges across the country has increased in the last decade the industry faces a war for talent, which, it is trying to address through industry and academia partnerships and investing heavily in continuous learning programs for their employees.

The company believes that it is necessary to recruit and retain staff possessing advanced technical skills by upgrading their skills and thereby enhance their ability to formulate key strategies. ASM provides a distinctive working atmosphere to its employees and ample opportunities for career growth. The company's remuneration structure is at par with the IT industry norms.

b. Competition Risk

The company's capability to offer innovative and value added solutions and services by integrating its diverse domain knowledge enables it to move ahead in an environment of increasing competition. Absence of vigilance against competition could result in contraction of revenues from business. The best practices and methodologies built up by the company for development and

customization of solutions ensure that projects are completed with speed, optimal resources and meet customer needs. The unrivaled blend of engineering culture and technology skills adopted by the company and its strategic acquisitions and management resources adds to its capability to proffer innovative and value added solutions and services by integrating its diverse domain knowledge experience.. The company has derisked its business from competition by virtue of its domain expertise in providing end to end total IT solutions.

c. New Technologies and Business Models

The IT services market is characterised by rapid technological changes, evolving industry standards , changing client preferences and new products and service introductions. The company keeps itself up graded with the latest technologies solutions and assimilates changes to be successful in anticipating or responding to technological advances on timely basis. ASM has constantly expanded its infrastructure, technology and people skills to address the specialized markets in which is present. The acquisitions made by the company has enhanced the company's capabilities to provide innovative and state- of- the -art services in its business segments. The company adopts various standards to ensure that information is secure and is not susceptible to disasters. The company also regularly audits and verifies its compliance with security and disaster recovery measures. ASM has centralized back up and data recovery systems and planned procedures for regular back up of all critical servers.

d. Geography Risk

Overdependence on any one geography market entails risk of volatility and downturn in that economy. The company's firm roots and prominent presence in the home market provides it an opportunity to refine its international offerings with the derived benefits of synergy across operations and optimizations of resources. The company's well grinded skills tested in Indian markets enable it to spread efficiently its business across various geographies.

ASM continues to be an attractive and cost effective off- shoring alternate despite oscillations in the global economy. The company has insulated its overall performance from the impact of downturns in specific markets with a domestic international spread of business and combinations of its various solutions and services. The company moreover derives most of the revenues from off shoring business resulting in a healthier bottom line and protection from risks from any downward spiral in any economy. The company's growth is not dependent on any specific geographic area or specified industry segment.

5. Internal Control System and their adequacy

The internal control systems adopted by the company are adequate and appropriate to its operations. The system has been designed to ensure that assets and interest of the company are protected and dependability of accounting data and its accuracy are ensured with proper checks and balances

The Company has internal audit to examine and evaluate the adequacy and effectiveness of Internal Control system. The internal audit ensures that the system designed and implemented to provide adequate internal control commensurate with the size and operations of the company. The Audit Committee of the company chaired by the independent director and consisting of other non-executive independent directors, periodically review and commend the quarterly, half yearly and annual financial statement of the company. A detailed note on the functioning of the audit committee forms part of the chapter on Corporate Governance in this Report.

The management duly considers and takes appropriate action on the recommendations made by the statutory auditors, internal auditors and independent Audit Committee of the Board of Directors.

May 28, 2011

Dear Shareholder,

The Ministry of Corporate Affairs has taken a “Green Initiative in Corporate Governance” by allowing paperless compliances by Companies through electronic mode. In accordance with the recent circular No. 17/2011 dated 21.04.2011 and circular No. 18/2011 dated 29.04.2011 issued by the Ministry, Companies can now send various notices and documents, including Annual Report, to its shareholders through electronic mode to the registered e- mail addresses of shareholders.

It is a welcome move for the society at large, as this will reduce paper consumption to a great extent and allow shareholders to contribute towards a Greener Environment. This is a golden opportunity for every shareholder of ASM Technologies Limited to contribute to the Corporate Social Responsibility initiative of the Company. Further it will ensure instant and definite receipt of the reports by you.

We notice that your email ID is not available in our records. As we propose to send future communications, in electronic mode, we request you to kindly update your e-mail ID to asm.cs@karvy.com

Thanking you,

Best Regards,

P.N.Lakshmi
